PROFESSIONAL SUMMARY

QUT Bachelor of Information Technology student, expected to graduate in 2027, majoring in Cyber Security and Artificial Intelligence. Developed foundational skills in Python, SQL, networking, and security concepts through university study and experience in customer-facing, team-based environments. Brings strong communication, problem-solving, and adaptability, with a clear interest in applying technology, data, and critical thinking to business challenges in technology risk, data assurance, cybersecurity, and digital transformation.

SKILLS

- **Cybersecurity:** Identity & Access Management, Microsoft Entra ID, MFA, access controls, cybersecurity fundamentals, risk and compliance awareness
- **Systems & Tools:** Microsoft 365, Power Platform, Raspberry Pi, GitHub, POS systems
- **Professional Skills:** Communication, teamwork, problem-solving, adaptability, time management, stakeholder communication, customer service, leadership, training and peer support, attention to detail
- **Programming & Data:** Python, SQL, data analysis, basic AI/ML concepts
- **Networking & Security Concepts:** networking fundamentals, cryptography fundamentals, testing/troubleshooting, hardware integration

WORK EXPERIENCE

Apr 2026 - Present

CYBERSECURITY CONSULTANT | IDENTITY & ACCESS MANAGEMENT

ScienceGears
Brisbane, QLD

- Configure and manage Microsoft identity and access management environments, including Microsoft Entra ID.
- Support cybersecurity incident handling, risk analysis, and security improvement activities.
- Implement and strengthen multi-factor authentication controls to improve account and access security.

Apr 2026 - May 2026

TECHNOLOGY CONSULTANT (POWER PLATFORM)

DynamX Institute
Brisbane, QLD

- Built a working business system using Power Platform concepts as part of a structured technology consulting program.
- Applied requirements analysis, business process modelling, and solution design to address a real-world business scenario.
- Developed professional consulting skills through system planning, client-style problem analysis, feedback review, and solution refinement.

Mar 2026 - Present

EVENT OFFICER

Code Network
Brisbane, QLD

- Coordinate university technology events by supporting room bookings, schedules, participant planning, catering, and on-the-day logistics.
- Communicate with stakeholders, volunteers, and attendees to support smooth, safe, and well-organised event delivery.

May 2025 - Present

CUSTOMER SERVICE SUPERVISOR

Coles Group
Brisbane, QLD

- Supervise team members in a high-volume retail environment while supporting customer service, checkout operations, and issue resolution.
- Train and support staff on service standards, POS procedures, refunds, exchanges, and professional customer communication.

RELEVANT PROJECTS

Apr 2026 - May 2026

Business System Model

DynamX Institute
Brisbane, QLD

- Developed a working business system model as part of a structured technology consulting program.
- Applied business process analysis, system planning, and Power Platform concepts to design a practical solution.
- Used feedback and submission checkpoints to improve the business system and demonstrate professional consulting skills.

Jul 2025 - Nov 2025

LUNA - TurboPi Intelligent Robot

Associated with QUT (Queensland University of Technology)
Brisbane, QLD

- Contributed to the design, assembly, and testing of a Raspberry Pi 4B-based TurboPi robot.
- Integrated Python programming, computer vision concepts, embedded systems, and hardware components.
- Supported testing, troubleshooting, and refinement of robotic functionality.

LEADERSHIP & VOLUNTEERING

Apr 2026 - Present

CYBERSECURITY CTF EVENTS VOLUNTEER | CYBER IN MOTION CREW

Cyber in Motion
Brisbane, QLD

- Support the planning and delivery of hands-on cybersecurity events, including Capture the Flag activities.
- Assisted with event setup, participant support, event operations, and CTF-related tasks.
- Follow confidentiality, privacy, and organisational policies while supporting cybersecurity education initiatives.

Aug 2025 - Present

EVENTS AND STUDENT ENGAGEMENT VOLUNTEER

QUT Guild
Brisbane, QLD

- Support student engagement initiatives through event assistance, communication, and on-the-day event support.
- Assist with volunteer activities that promote student participation and campus community involvement.

Apr 2023 - Mar 2024

STUDENT COUNCIL

Habitat Schools
Ajman, UAE

- Contributed to student activities and school initiatives through teamwork, communication, and leadership.
- Supported classmates with mathematics problem-solving by explaining concepts and helping students work through difficult questions.
